

Job title	Intern Architect		
Department/Group	Chamberlain Architect Services	Position	Full time

## JOB DISCRIPTION

Job Title: Intern Architect for Chamberlain Architect Services Limited

We are a firm of 40+ employees with over 40 years in business. Chamberlain have active projects across North America. We provide full service architectural/interior design and construction management through an integrated project delivery method. We are committed to providing excellence in planning, design, construction documentation, project management and construction management.

Chamberlain are looking for the best talent to augment are already amazing team. What sets us apart! Big enough to work on a large range of building types with the infrastructure and support required to make all projects a success yet small enough to act on an ever changing profession. Our employees do not get pigeon holed and instead experience full range of Architectural services with ongoing support. We believe investing in our talent is critical to achieving these goals.

What We Offer • Competitive salary and vacation plus Performance based bonus. • RRSP Match • Employee referral program. • Chamberlain social club sets up events during the year including events with Partners/Spouses • Outdoor eating Area and Employee Lounge/Lunch Room and Game Area • Flex-Hours during the week and Summer Hours

This role will provide you with an opportunity to develop, while also allowing you to work towards developing a unique skill set as an expert in integrated project delivery. Role will allow candidate to take part in all stages of project delivery for a wide range of exciting innovative projects.

Applicants should have a minimum of 2-5 years of experience delivering quality hospitality and Multi Family projects. The successful candidate will have the ability to take initiative in response to direction from Parnters and is willing to be flexible towards new ways of working. Successful candidate must embrace a fast-paced environment and coming to conclusions quickly. This role will require both individual work as well as working within a team environment. The following items will be considered for the position available

- Bachelor or Masters degree in architecture
- Relevant work experience in design/design development with mid-rise and multi-family building types preferred
- advanced proficiency with Revit, AutoCAD, Photoshop, Microsoft Office, Lumion (would be bonus)
- Familiarity with municipal approvals, zoning by-laws and Committee of Adjustment is an asset
- capable, flexible, self-motivated and collaborative with excellent communication and organizational skills

At Chamberlain we use multiple platforms to communicate:

10 years ago we decided to drive all projects using Revit as our main tool to creating world class architecture. This means that all candidates must be a skilled Revit-user.

Interested Candidates please send resumes and portfolio's to Jon McGinn at [jmcginn@chamberlainipd.com](mailto:jmcginn@chamberlainipd.com)
